Dear Sam

Will you write out your recollections of the second day when you were present, of the Episcopal conv: short if you please half a column in the Liberator – but preserve as many facts as you can – should you have any objection to Johnson's prefixing his recollection of the first day when Judge Huntington make the motion which you saw him crack out of – ? Judge Day's memorial was never presented that I know of –

Yr W Wallcut

I am to have the Lib. next week, & will, if you send in your facts, take them & Johnson's & make an article, if you prefer that.

Mrs. Brooks has sent for the things to have a fair. When I know not. Probably, the 4th july. If it should be desirous would you do? I wrote to her you would, probably.
